

ITS MERIT IS PROVED

RECORD OF A GREAT MEDICINE

A Prominent Cincinnati Woman Tells How Lydia E. Pinkham's Vegetable Compound Completely Cured Her.

The great good Lydia E. Pinkham's Vegetable Compound is doing among the women of America is attracting the attention of many of our leading scientists, and thinking people generally.

Mrs. Sara Wilson

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women.

Dear Mrs. Pinkham:

"About nine months ago I was a great sufferer with female trouble, which caused me severe pain, extreme nervousness and frequent headaches, from which the doctor failed to relieve me. I tried Lydia E. Pinkham's Vegetable Compound, and within a short time felt better, and after taking five bottles of it I was entirely cured. I therefore heartily recommend your Compound as a splendid female tonic. It makes the monthly periods regular and without pain, and what a blessing it is to find such a remedy after so many doctors fail to help you. I am pleased to recommend it to all suffering women." Mrs. Sara Wilson, 31 East 3d Street, Cincinnati, Ohio.

If you have suppressed or painful periods, weakness of the stomach, indigestion, bloating, pelvic catarrh, nervous prostration, dizziness, faintness, "don't care" and "want-to-be-left-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, or some derangement of the organs. In such cases there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.

We See No Reason

why a person should contract pneumonia, grip or severe colds when they can be prevented by taking a little pure whiskey when they feel the first chill. It will quicken the circulation and keep the blood from congesting.

Call us by 'phone or mail your orders; same will receive prompt attention. We also serve the family trade with bottled beer, delivered anywhere in the city.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the borrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

MILLIONS ARE LOST TO THE DOWIEISTS

Gladstone Son of the Prophet Goes to Zion to Allay Suspicions of the Faithful.

QUERY "WHERE ARE THE TITHES?"

Son of the "First Apostle" is Up Against a Game Like the Wizards of Insurance Have Played—Did Actress Kiss Him—"What Became of the Money," is the Question.

(Special to the Daily Press) CHICAGO, ILLS., Feb. 10.—Gladstone Dowie, son of the "first apostle," hurried from an eastern train to the one bearing him to Zion City, but found time in the interim to denounce as "nonsense" the reported osculatory attempts of an actress on his unbidden hand and to reaffirm his decision to keep silent regarding his mission until he had reached Zion City.

"There is nothing to say at the present time," he said; "that will come later."

Gladstone also brought the news that his father would not return to Zion City until the end of next June. The present questions troubling the Zion settlers are as follows:

Who handles the \$1,000 a day paid into the treasury in tithes?

Where are the fabulous donations sent to Zion City from all parts of the world?

Who has the money raised a short time ago for the purpose of sending missionaries to Switzerland, Holland, China, Japan, Russia, Spain, Norway, Sweden and the north of Ireland?

What about the profits from the lace and candy factories?

Who has charge of the money accruing from the order that people should pay tithes upon a tithe.

It is understood as soon as Dowie returns, a demand will be made for a thorough accounting of all funds received and of all disbursements for the last seven years.

A Winged General of the Seas.

One of the most extraordinary specimens of the fish family is the "mam hat gun," or great general of the south sea, an animal of the whale species, which has its home in the Indian ocean. A full grown mam is upward of thirty-five feet in length, pure black in color and has eyes as large as a saucer. Besides the above characteristic features, which may be said to be whalelike, with the exception of the eyes, the mam has two immense tusks which resemble those of the elephant, both in size and color, and two queer winglike membranes extending along its sides from the side fins almost to the tail. The old nams have a curious habit of marshaling their kind to do battle with the whales and the sharks, and old mariners say that they maneuver with so much intelligence and sagacity that they are known to all the islanders by names which signify winged generals, winged warriors or winged chiefs of the seas.

The Heliotrope.

Although the heliotrope is a tender plant, extremely sensitive to cold, it is one of the best plants for cultivation indoors. It seems to have few diseases and is usually free from insect enemies, while with abundant water and sunshine and sufficient artificial heat it will bloom all winter long year after year and is so tenacious of life that when cut down to a mere stick it quickly shoots forth luxuriant new wood. In addition to this the more the plant is pruned the more luxuriantly it blossoms. The blossoms should be cut with a considerable length of the new wood upon which they grow, and if at once fully immersed in water and then placed deep in a well filled vase they remain fresh and odorless for many days. The plant is a little difficult for amateurs to propagate from cuttings, though with plenty of water and sun and some bottom heat the young cuttings quickly root and prosper.

A Pat Reply.

President McKinley once had an applicant for the post of minister to Brazil who brought with him a petition signed by 7,000 Chicagoans. It seems that he was a picture framer, and as he went about canvassing for orders he was in the habit of collecting signatures to his petition. President McKinley listened respectfully to the applicant, questioned him as to his qualifications and finally explained that before he could give the matter serious consideration he would have to confer with the senators and representatives from Illinois.

"You know that we have to select big men for these big places," said the president kindly as he bade his caller goodbye.

"Won't I be just as big as any of 'em if I get the job?" was the retort.

Daily Press Want "Ads" bring the desired results.

This week the Academy of Music of actors of both England and America. He is conscientious and indefatigable in his work, and in "Buster Brown" especially as a make-believe tramp, he is acknowledged as being the funniest article that has gambled over the stage in many a day.

Miss Corinne Runkel.

performances every night and Wednesday and Saturday afternoons.

The Runkel company played a successful stock engagement at the Academy.

"Buster Brown" (Master Gabriel) and his dog Tige (George Ali.)

Apparently it has not occurred to Secretary Taft that the most effective method of reducing his weight might be to take the dirt fly at Panama.

"A True Kentuckian" is the play advertised for the opening Monday night. There will be a change of bill, with new specialties between acts, each evening.

Popular prices will prevail during the engagement. For tomorrow night ladies' tickets will be sold for fifteen cents.

"Buster Brown" Tuesday.

Master Gabriel who plays Buster in Melville B. Raymond's cartoon comedy "Buster Brown" at the Academy Tuesday night is just 2 inches high, and is really 14 years older than he looks. He is not an old actor by any means, which is not a joke and apparently, at times, is yet as much interested as his audience in what goes on around him. He is at least a pretty good specimen of the cultivated kind. The advance man says he must be seen to be fully appreciated.

George Ali, the Tige in "Buster Brown" is well known for his ability to play animal parts. He has never played any other than the role of an animal character.

He is a young Englishman short of stature, pleasant in manner and is repaid by his ability to play animal parts on the stage. He has been in the employ of some of the leading man-

RICHARD CARLE, As He Appears in "The Mayor of Tokio."
